en s'appuyant sur des travaux empiriques et des études sectorielles cet ouvrage propose une vision renouvelée des interventions de l'État en afrique au cours des années 1980 les institutions financières internationales imposent un État minimum tous les pays en leur retirant une partie de leur pouvoir dans les domaines économiques et sociaux en préconisant une profonde réforme de l'État leurs programmes d'ajustement structurel devaient résoudre le problème de la dette permettre aux pays de renouer avec la croissance et redonner les pouvoirs publics nationaux de certaines de leurs prérogatives au profit d'acteurs privés afin

de favoriser la mondialisation et le libéralisme les États africains furent contraints d'appliquer ces politiques libérales élaborées par les instances internationales qui se traduisirent presque partout par des échecs voire par des catastrophes socio économiques et sanitaires de plus les populations qui s'appauvrissaient sous leurs effets les rejetèrent parfois violemment si bien qu'à la fin des années 1990 on assista à une lente réhabilitation des politiques publiques. L'État comme acteur principal du développement retrouvait ainsi une certaine légitimité accordée par des déclarations et des forums internationaux les textes réunis ici reviennent sur ces trajectoires historiques et montrent combien les États africains bien que sur la voie de la réhabilitation ont du mal à retrouver le rôle central qui était autrefois le leur peinant à définir des politiques publiques et à faire respecter leurs choix face à la multiplicité des acteurs nationaux et internationaux aux intérêts parfois divergents et aux ressources fort différentes.

a worthy man is compassionate decent and gentlemanly toward others out of a sense of pride he will not stoop to behave viciously and he will not demean himself by acting cruelly a man does not seek out a fight but he will fight to protect himself his family and his country a gentleman is silent unless he has something worthwhile to say he is reserved dignified and mannerly if family values is to mean anything more than a pleasing slogan we must draw upon the wellsprings of the deepest ethical and religious traditions of american and western civilization both to hone our diagnosis of the current agony of manliness and more important to provide the healing balm of insight compassion rectitude and guidance from the code of man in many ways waller newell writes young men today are in deep spiritual trouble but they are also yearning for a way back to the noblest ideals of american manhood the code of man represents a deep and thought provoking effort to help guide contemporary men back to those ideals as embodied in what newell calls the five paths to manliness love courage pride family and country at the dawn of the twenty first century he argues we have grown so concerned about the roles of sex and violence in our society that we have forgotten the older virtues romance and eros courage and patriotism the blend of love and bravery it takes to raise a family in the code of man he exhorts us to look to the traditional virtues of the past for inspiration contrasting the time honored lessons of traditional voices shakespeare and abraham lincoln jane austen and teddy roosevelt with the chaotic signals emanating from sources like eminem video games like thrill kill and goth culture newell illustrates how we have come to associate courage with violence transgression with wisdom most disturbing he argues the essential triumph of western culture may have left us with a building reserve of untapped aggressive energy and no consensus about how to channel it a situation that threatens to

weaken us at the core seamlessly weaving together literary references from a diverse body of sources waller newell offers an open eyed look at what it means to be a man in america today and a clarion call to recapture our traditions if we are to preserve our character as a society and avoid catastrophe

the most honest most revealing and funniest exploration of male mental health i have ever read adam kay matt rudd may have written the most important book in a generation idle society on the surface men today don t have much to complain about at work they still get paid more than women for doing the same jobs at home they still shirk most of the unpaid labour putting the bins out does not count beneath the surface it s a different story an alarming number of men end up anxious exhausted depressed and very reluctant to admit they are even if they do everything that s expected of them in work life and fatherhood genuine happiness is still elusive by midlife their levels of stress are higher and their levels of wellbeing are lower and work life balance turns out to be just a cruel illusion the evidence is clear and ironic the system set up by men for men doesn t work for men either it is making none of us happy in man down matt rudd takes the long view on this perplexing paradox drawing on stories from his own life and the varied lives of the other men he has interviewed he goes back to the beginning to consider what makes the modern man how the seeds of midlife misery are sown in the school playground and cultivated through adolescence and into adulthood by turns compassionate and provocative man down asks the important question is midlife unhappiness inevitable spoiler alert it isn t

this is an annotated version of the book 1 contains an updated biography of the author at the end of the book for a better understanding of the text 2 this book has been checked and corrected for spelling errors on childhood and youth in one sense very young persons are apt to think too much of themselves in another not enough when they think they know more than their parents and teachers or other elderly people and so set up to be bold and smart then they think too much of themselves it used to be said when i was a boy that young folks think old folks are fools but old folks know young folks are fools although i would be very far indeed from calling you fools because you have already acquired much knowledge and have the capacity for acquiring much more yet with reference to such knowledge as is acquired by experience and in comparison with what there is to be known there is more truth than poetry in the old adage but when young people suppose it is of no consequence what they do or how they behave because they are young then they do not think enough of themselves should you see a man riding with a little stick for a whip you would not think his stick worth your notice at all but the biggest tree that ever i saw grew from a little willow stick that a man rode home with and then planted in his garden you have sat under the beautiful shade of a great elm tree and when you have looked upon its tall majestic trunk and its great and strong branches with their ten thousand little limbs waving gracefully before the wind you have been filled with admiration and delight what a mighty tree you say i wonder how long it has been growing but the seed of that tree when it was planted many years ago was no bigger than a mustard seed and if you had seen the little tiny sprout that your grandfather was tying up with so much care when it was a few years old you would have wondered that a man should think so much of such an insignificant twig but if he had let it grow up as it began without any care it never would have been the stately tree it is now that was the most important period in its life when it was a little twig it began to lean over and grow crooked and ugly if it had not been trained up then it would have continued to grow worse and worse and after it had grown to be a tree it could not have

been straightened at all now you are in some respects like this little twig you too have just begun to be and now your character is pliable like the young tree but unlike it your being is to have no end instead of growing a few hundred years like a great tree you are to live forever and every thing that you do now must have an influence in forming your character for your whole being in this latter sense you cannot think too much of yourself for you are the germ of an immortal being did you ever stand by the shore of a placid lake or pond in a calm sunny day and throw a little stone into its smooth silvery waters did you observe how first a little ripple was formed around the place where it struck and this was followed by a wave and then beyond another and another till the whole surface of the water was disturbed it was a very little thing that you did and yet it agitated a great body of water so it is with childhood and youth the most insignificant action you perform in its influence upon your character will reach through the whole period of your existence
